*All new students need to pay a one-time registration fee of \$50.

tests

*Students who come twice a week will take a test every other Monday.

*Students who come four days a week will take a test every Monday.

*All Essencia, Subject Math, and 7-8th Grade Math students will take their tests in class.

Modified on June 16, 2010 6:24 PM

sat omnia

Our SAT Omnia class is designed to strengthen high school students' verbal and math reasoning skills, and, of course, raise their test scores. It is a comprehensive overview of the SAT Reasoning in that it focuses on all three sections equally. This class is best suited for students who have never studied with us before.

sat accel

Our SAT Accel class is designed to strengthen high school students' verbal and math reasoning skills, and, of course, raise their test scores. It is a comprehensive overview of the SAT Reasoning in that it focuses on all three sections equally. This class is best suited for students who demonstrate strong critical thinking skills, with high GPAs (3.5 or better) and who expect to score higher than 1800 on the SAT.

subj math

Our Subject Math class is designed to prepare students for the SAT Subject Math Level II test. This class will cover all the basics of the SAT Subject test: Algebra, Plane Geometry, Coordinate Geometry, Solid Geometry, Functions, Trigonometry, and Statistics.

7-8th gr math

The 7th-8th grade Math class reinforces math reasoning skills. This class will cover Algebra I, Geometry I, and some Algebra II. The main emphasis of this class is word problems, so that students can build a firm foundation for higher levels of math they will study in high school.

ssat

Our SSAT classes are recommended for middle school students applying to the most competitive high schools, such as St. Ignatius, Lick-Wilmerding, and University High. The class devotes approximately equal time to the math and verbal sections.

essencia

Essencia is designed for students whose goals are both to improve their critical thinking and math skills and to get ahead in their SAT prep. Essencia focuses more on the deeper ideas of great literature and prepares students for the tricky math that lies ahead on the SAT. How do we do this? By using works of literature from such authors as Mark Twain and Herman Melville and adapting them to SAT exercises. Essencia is a perfect blend of TestMagic Ascend classes and SAT-prep classes. Curriculum is adjusted according to grade level.

THE PROMOTION

All siblings who sign up together will receive a 5% discount!

THE FINE PRINT

All information subject to correction. Some conditions and restrictions may apply. All new students need to pay a one-time registration fee of \$50. *Please note that the number of class hours listed is an approximation.
